Index to 1940 U.S. Census for Indiana is Completed

Our good friends at the Indiana Genealogical Society [1] have just announced that FamilySearch [2] has posted the Indiana portion of the 1940 census index [3]!
These indexes as well as the corresponding images of the census pages are free, part of the 1940 U.S. Census Community Project [4].
To find this and other searchable databases to help you with your genealogy, try the Indiana Room's Genealogy Research Guide [5].
