The Book of Songs & Rhymes with Beat Motions

Singing is one of the best activities children and caregivers can enjoy together. Singing promotes a love of music in young children and helps build early literacy skills by breaking words down into small pieces. The library is a great source of wonderful songs for early childhood in books, CDs, Books on CD, and DVDs. A particularly good source of engaging songs for preschool and young school-aged children are the materials by Dr. John Feierabend. Look for his books in the Parent-Teacher Resource Room. Adults who spend time with small children will love The Book of Songs & Rhymes with Beat Motions [2]. Here you will find songs, rhymes, and games that encourage moving with the beat. These rhymes and songs have been passed along for generations and are full of magic and imagination. You will also find CDs of songs collected by Dr. Feierabend in the Children's Audio-Visual collection.

Oh, the Thinks You Can Think [3] Nonfiction [4] Songs [5] The book of songs & rhymes with beat motions : keeping the beat [6]
