Write a review of the book, including plot points, if you wish:
This book was about a seventeen-year-old girl who falls down the steps in front of her school and hits her head. When she wakes up in the hospital, she realizes she has forgotten everything from the last four years, including her parents divorce, her best friend Will, her boyfriend Ace, and just about all of the schoolwork from the last four years! She falls in love with a "bad boy", James, and her life is totally messed up. It's a great book!
Similar authors or titles?:
This book is similar to one of Gabrielle Zevin's previous books, 'Elsewhere.' In this book, a teen is hit by a car and sent to the strange afterlife which is much like Earth. She is faced with the prospect of aging backward until she is a baby and has forgotten everything about her previous life.
Would you recommend this book?:
