

How do I renew items?

Question:

How do I renew items?

You may renew items checked out to you as long as the item is renewable, you still have renewals left and there is not a waiting list for the item.

To renew items, [login into your account](#), choose the Items Out/Renew tab near the top of the screen, select the item(s) you want to renew and then click on the "Renew Selected Items" or "Renew All Items" button. A confirmation message will appear letting you know if the renewals were allowed.

You may also renew your items in person at a checkout desk or by phone by calling 349-3090.
