

Where will you Mango?

Mango is an online language learning system teaching practical conversation skills for a variety of popular languages and ESL courses. It's fast, easy and available anywhere you get online. Best of all, it's FREE through your local library!

Lessons include strategically placed memory-building exercises to help users remember what they are learning in addition to critical thinking exercises, which help them to intuitively understand the language and adapt it to similar conversations.

You will have the option to start learning right away as an anonymous user or to create a profile, which will allow you to track your progress and time spent learning each language. If you create a profile, you will receive an activation e-mail with an activation link. This link is to be used only once to activate your account. Every subsequent log in should be through the link on the library's website. After you complete these simple steps, you should be all set to start language learning with Mango!
