

Freegal

Our library's blog is now more than a year old. So far, most of our post's have been more about movies than music so I thought this would be a good time to introduce Freegal. Freegal is a Sony Music based website that allows valid library card holders in good standing to download free and legal music hence the name Freegal.

Each library patron is allowed a maximum of three downloads per week. A week runs from Monday through Sunday. You login to the Freegal website by entering your library card barcode number as your card number and entering your password as your pin. Simply search the database for a desired song or artist and click on the link for "download" and then click "save". It's that easy! All songs are DRM free and you can keep them forever. They do not expire. For more information please see our downloadable music instruction page. We hope that you enjoy this new service.
