# How To Get Filthy Rich in Rising Asia

[view in catalog](#)

Masked in the persona of a self-help book, this novel is really a love story and a tale of the ambitious struggle of a rural bumpkin to get ahead in a world madly developing at all costs. Unlucky enough to nearly die from hepatitis as an infant, because he is his mother's favorite, he is saved and the family soon follows the first theorem to worldly success in Asia: move to a big city.

Each chapter summarizes in the title that chapter's method of achieving worldly success; for example, the second chapter advises, "Get an education." Though normally the eldest son in this unnamed Asian country (probably Pakistan) would be pushed to study, in this family the narrator was lucky because his older brother was already learning a trade. And being bright, he succeeded at school despite contradicting a teacher who gave out false information. For in school, you never pointed out the failings of a teacher. [Read more](#)

## Bark

[view in catalog](#)

No one else does wry humorous stories full of punch the way Lorrie Moore does. In *Bark*, her newest collection, she examines modern life after divorce and the difficult art of parenting teens. In the opening story "Debarking" she describes the dating life of a newly divorced man, Ira Wilkins. He meets a zany pediatrician Zora at a dinner party, and they begin seeing each other. Unfortunately, this also involves contact with Zora's teenage son—the zip-lock mouthed, Bruno. Does it give Ira the willies that Bruno and Zora have an uncomfortable habit of sitting close and

touching? Yep. Yet Ira plows on with a romance that is hardly reciprocated. His confidence is down so he allows Zora and Bruno to take advantage of him?he buys them meals, movie tickets, etc. They even take the rest of his birthday cake home after a lackluster celebration because Bruno needs it for his school lunch. This can?t end well and it doesn?t but what fun happens along the way.

More eerie is ?The Juniper Tree? a kind of new age ghost story where three women share their talents: art, dance, song with their recently deceased friend who still haunts her house. The first person narrator never made it to the hospital to see the friend, Robin Ross, and in fact came to this odd séance with no prepared gift. So on the spot, she sang a rendition of the ?Star Spangled Banner.? [Read more](#)

## Caribou

[view in catalog](#)

It?s National Poetry month, so I want to introduce a new book of poetry to you, Charles Wright?s *Caribou*. Pulitzer Prize winner, Wright composes strong, elegiac poems in an easily accessible style and whatever subject matter they cover, all lead back to the world?s incredible yet fragile beauty. Here?s a sample from ?*Natura Morta*?: ?The tiny torches of the rhododendron leaf tips / Trouble our eyesight, / and call us into their hymnal deep underground.?

The most touching poems discover the magical world of night while also exploring the mystery of death as in ?Time and the Centipedes of Night?: ?When the wind stops, there?s silence. /

When the waters go down on their knees and touch their heads / To the bottom, there?s silence, when the stars appear / face down, O Lord, then what a hush.? [Read more](#)

## How Artists Work

[view in catalog](#)

Do you believe creative artists should be disciplined? Honor routines? Sit (or stand) at their desks, go to their studio every day? Or do you think they should be free spirits? Explore the world? Pound the pavements; hike in the woods? Visit coffee shops and saloons and meet people? Write or paint or compose as the feeling strikes them? Perhaps after delving into this book of 161 summaries of artists' routines, you will change your mind.

It's surprising how many of these creative spirits rise at sunbreak and commence work quickly. This book gets into the nitty gritty. Did you know that Beethoven made his own coffee every day? He routinely counted out sixty coffee beans. He also loved to bathe before a sink, splashing pitchers full of water over himself, but unfortunately, this water spilled on the floor and dribbled downstairs to his landlord's place, forcing the owner to put a concrete base under the great composer's sink. The esteemed composer's servants also had a laugh-fest each time he bathed because he did so while "bellowing up and down the scales." [Read more](#)

## Earthquake Storms

[view in catalog](#)

This is the kind of interesting read that can make you dream of switching fields. Both the title and subtitle are misleading, it's about much more than earthquake storms (a series of large quakes that strike the same fault close together in time), or even the San Andreas Fault, famous for being that volatile line that runs from the California redwoods to its southern deserts.

Although it does focus on ground shaking in California, it's also a compendium of earthquake lore that describes quakes in Turkey, Italy, and other places. One intriguing section describes how recent research confirms that the famous Delphi of Greek mythology was a site of earthquakes. The priestesses there supposedly sat before a crack in the earth and made prophecies. Scientists have found that the earth nearby released ethylene, a gas that is now known to cause trances.

The book begins with the narrative of a young San Franciscan mechanic who took a daily swim in the ocean. One morning he walked to the beach as always and after being whacked

repeatedly by waves, then thrown upon the [Read more](#)

## Drug War

[view in catalog](#)

If you are looking for a good, modern crime thriller, and are not averse to subtitles, this new Johnnie To movie is definitely worth checking out. A contemporary of filmmakers like [John Woo](#) and [Tsui Hark](#), [Johnnie To](#) has been known for making good (crime) pictures in China for awhile now, but this new one is a great blend of action and plot. Reviews I have read compare it to [Infernal Affairs](#) (which Martin Scorsese's [The Departed](#) was based on), though the plot here is not THAT convoluted. [Read more](#)
