8

Title:

The Land

Author:

Mildred D. Taylor

Genre:

historical

Write a review of the book, including plot points, if you wish:

the land is about how this young boy becomes a man named Paul-Edward Logan, in the time of segregation. His mom is black and his father is white. He has a white brother and soon his brother betrays him and Paul gets beat because of it. He soon finds himself running away to another place away from home and this is where his true life begins (I say).
