Write a review of the book, including plot points, if you wish:

Kasahara Iku was saved by her prince charming when she was in middle school and has forever thought of him as her role model since then. Now that she's older she joins the Library Task Force to be just like him, but little does she know that her prince charming works there and he's the strict Instructor Dojo! Will she figure out that it's her prince or will she be bogged down by the strict training and discipline of Dojo?

Would you recommend this book?:

Yep, definitely a good read. Especially if you got a thing for Prince Charmings!
