8

Title:

The White Queen

Author:

Philippa Gregory

Genre:

historical

Write a review of the book, including plot points, if you wish:

The book *The White Queen* was a very intriguing and enchanting book. It showed how hard to live during the time of monarchs was for just common people back then. The main character Queen/ Lady Elizabeth also shows that when you are in a royal family you are never secure from envious or jealous families. *The White Queen* also showed great historical fiction and most of the story is true making it a history lesson that you can actually enjoy. *The White Queen* is one of my favorite books and it is also part of a series which I will read as well.
