

Privacy Policy Regarding Web and E-mail Communications

This policy explains the types of information the Monroe County Public Library collects when people visit the library's web site or send e-mail to the library and what the library does with that information.

The library is committed to protecting the privacy of the people who use the library and who communicate with the library electronically via e-mail or the Web. Except when compelled by a court order, the library does not share personal information about patrons with any other outside organizations. Any personal information the library may collect about library patrons is viewed by staff members for the library's internal and confidential use only.

The following is the only information collected when a patron visits the library's website:

- The IP address and domain name associated with the patron's computer.
- The browser software and operating system used to access the library site.
- The address of the web site that referred the patron to the library site.
- The date and time of the visit to the library web site.
- The pages visited on the library site.
- The search terms used that led the patron to the library site.

The library uses the information collected to count the number and type of visitors to the pages on the site. Information in individual library accounts is not associated with a patron's use of the Web.

The library uses cookies^[1] with its Web-based catalog to keep track of what scope of the catalog a patron has chosen to search or to remember the list of items a patron has exported. Cookies saved on the library's Web server do not store any personal information and expires after 24 hours.

The library acknowledges that, in general, e-mail is not a secure method of communication, and patrons assume sole responsibility for all electronic communications.

The library asks patrons to share an e-mail address in order that the library may send notices and reminders quickly and conveniently.

If patrons send a question or comment via e-mail, the library may save the message and any personal information it contains in files stored on its e-mail server. The recipient of the e-mail message may forward it to other library employees. The library does not give or sell the e-mail addresses of its patrons to any outside agencies.

For more information about how the library preserves patrons' privacy, please see the related documents:

- [Resolution on Access to Public Records](#) . Held by the Monroe County Public Library
