In this fast paced adventure novel, Jonathon Rickner and his brother's fiancÃ©, Mara, race to uncover a secret WWII conspiracy. The conspiracy is guarded by a secret government agency that's only goal is to cover up any leads; even murdering US citizens that get too knowledgeable of the secret. This is why Jonathon's brother, Michael, was killed. Mara and Jon race through historic sites in New York City trying to uncover clues left behind by Rockefeller himself.
