Write a review of the book, including plot points, if you wish:

This excellent novel combines fantasy, adventure, suspense, and romance. It follows a teenage girl named Emerson Cole who can see people from the past and travel in time. When she meets fellow time-traveler Michael, her life begins to take unexpected twists and turns that will keep readers reading until three in the morning... if the writer's awesome prose doesn't.

Would you recommend this book?:

Definitely.
