**Write a review of the book, including plot points, if you wish:**

Twilight is very Romantic, but it fits into a lot of other Genres. At first my sister recommended it for me i didn't want to read it because i though it would be a little scary, because it had to do with vampires, blood and all that stuff. After reading it i fell in love with it it is awesome! The book is all about Bella moving to live with her dad in Forks, Washington, ad finding out that the town has many unknown secrets like the Cullens. While she falls in love with Edward Cullen A every pail, Mysterious, and creepy person.
